5320 V. KANDASWAMI PILLAI, *Election Commr.*

OFFICE OF THE SUPERINTENDENT, GOVERNMENT PRINTING IN MYSORE, BANGALORE.

Dated 8th January 1946.

To

The Heads of Departments.

Sir,

The following Government orders have been issued from time to time regarding the economical use of paper and other stationery articles :—

1 G. O. No. A. F. 5330-5405—P. and S. 109-41-8, dated 28th March 1942.
2 G. O. No. A. F. 6321-4—P. and S. 44-40-4, dated 15th May 1942.
3 G. O. No. A. F. 2500-69—P. and S. 90 43-44, dated 2nd September 1944
4 G. O. No. M. 6485-560—P. and S. 47-44 1, dated 17th January 1945.

Heads of departments and other officers are requested to give effect to the following suggestions :—

Preparation of copies :—Copies are to be prepared on both sides of paper and the samples sent to the Government Press for obtaining printed copies have to be in a final form, since successive corrections are expensive and delay the work.

2. Matter set up in narrative form occupies less space and therefore tabular statements have to be kept down to a minimum. When tables are unavoidable they are to be condensed and combined so as to make the best use of the paper by prescribing the columns at their narrow limits consistent with the matter to be written therein.

3. Blank portion of pages, complete blank pages, title pages, wide margins on top, bottom and sides may be avoided as far as possible.

4. Matter in the nature of a list should be arranged in double or treble columns so as to make the maximum use of the available space as indicated below :—

Right way

1 Hide	4 Wood ware	7 Hardware
2 Glass	5 Paper	8 Machinery
3 Leather	6 Cloth	9 Wood

Wrong way

1 Hide
2 Glass
3 Leather
4 Woodware
5 Paper
6 Cloth
7 Hardware
8 Machinery
9 Wood

Preparation of forms.—Whenever a form is proposed to be printed indeterminate entries such as remarks, etc., may be avoided.

2. Each form should be designed so as to make use of both sides of the paper.

3. The working instructions printed on forms should be reduced to a minimum if need be, reference to the particular paras of the code or manual may be inserted. The width of the columns should be determined not by the headings but by the maximum width of the entries.

4. With questionnaire forms the space can often be increased by continuing the printed questions across the whole width of the form and omitting the column ruling.

5. Wherever possible, form with blank address printed have to be used and thus the use of separate envelopes avoided.

Economy in printing —The number of copies ordered may be limited to the minimum requirements. When a periodical return is proposed to be printed, the Superintendent, Government Printing may be consulted with regard to the size, type, style, cover, etc., at the earliest possible stage so that the technical considerations may be taken into account from the very beginning.

Rush jobs may be avoided as far as possible since the most economical set up cannot be arranged for at short notice.
